

FURTHER INFORMATION RELATING TO
2013 FINA WORLD LONG COURSE CHAMPIONSHIPS
SELECTION POLICY

Coaches and athletes are advised that the team size for the above event will be up to a maximum of 30 athletes and up to a maximum of 6 team coaches. This is due to funding constraints, in line with the general conditions of the published selection policy (Clause 1.2).

Where more than 30 athletes meet the consideration standards outlined in the selection policy (3.1), coaches and athletes should be aware that priority will be given to athletes in current Olympic events.

An athlete's World Ranking (2 per nation) and past performance at major benchmark meets in both individual and relay events will also be considered in prioritising selections. The factors identified in the general conditions (Section 7) will also be considered.

Coaches and athletes are asked to note that moving forward, as a result of both funding and performance considerations, team numbers for major events are likely to be less than the permitted maximum allocation.

Please direct any queries regarding this communication to Bill Furniss, Head Coach.
