

# **2020 Olympic Games Diving Selection Document** **for Great Britain** **Selection Policy Information**

## **Overview:**

This document is intended to provide transparency on those factors, which make up the selection process for the Tokyo 2020 Olympic Games.

## **Rationale and Aims:**

Diving is an extremely subjective sport and thus there will be a significant component of subjective decision making in regard to final selection of the team.

The size of the Olympic Team will be up to a maximum of sixteen (16) athletes, although some of the divers will double up in events reducing the amount of divers. The selection process and dates are outlined in this document.

The aims of the Diving 2020 Olympic Team are to:

- Achieve British Diving's defined (2-4) medal target; and
- Maximise the potential for results at the Paris 2024 Olympics and/or achieve Final places by all team members.

Final selection is subject to final ratification by the British Olympic Association (BOA) and will be based on nominations made against this Selection Policy. Nominations will be submitted to the BOA and following ratification by the BOA, the team will be announced (by the BOA in consultation with British Swimming). It is important to note that an athlete being selected to the Olympic Team and nominated to the BOA does not guarantee participation in an Olympic Diving Event. The NPD has complete discretion to decide the composition of the synchronised diving teams whilst at the Olympic Games.

## **Eligibility**

- Only athletes who are a British citizen, have a valid British passport (valid for six months after the Games) and are eligible to represent Great Britain as per the Olympic Charter Rules will be considered. The BOA in consultation with FINA and the International Olympic Committee ("IOC") will decide on any question of eligibility (having regard to all eligibility criteria including as set by the BOA, British Swimming, FINA and the IOC) and the IOC's decision shall be final.
- Only athletes complying with any other BOA and/or IOC eligibility criteria from time to time, including in respect of nationality and/or anti-doping may be considered.

### **Olympic Diving Events – men and women:**

3 metre springboard  
10 metre platform  
3 metre synchronised  
10 metre synchronised

### **Athlete Quota – men and women**

68 competitors in the men's events and 68 competitors in the women's events  
A total of 136 divers attending the competition  
Maximum of 34 competitors per individual event  
Maximum of two divers per country in each individual event  
Maximum of one synchro team per country in each synchronised event

### **NOC Entries per Event**

Individual event – up to two divers may participate in each event per nation, subject to quota places having been qualified. Divers of individual events must fulfil the qualification requirements of that event.

Synchronised event – two divers (one team) may participate in each event, subject to the relevant team quota place having been qualified.

### **Great Britain Olympic Qualification:**

Athletes competing in Phase 1 and Phase 2 below will be competing for qualification places for Team GB at the Olympic Games and not individual places on the Olympic Team. Qualification of a quota place does not guarantee selection to the Olympic Team.

A Selection Panel ("the Panel") appointed by British Diving will consider athletes for nomination to the BOA for the 2020 Olympic Games under this Selection Policy. The Selection Panel will comprise:-

#### a. Voting members

- British Diving National Performance Director ("NPD"), Alexei Evangulov;
- British Diving Performance Manager, Kim White;
- British Diving Talent and Development Manager, Julian Bellan;
- British Diving Head of Sports Science and Medicine, Adam Sotheran.

*Note: In the event of a tied vote the NPD shall have the casting vote.*

b. Non-voting members

- Independent observer (who shall be the Chairperson of the Panel);
- Note taker(s) as required.

Note: The role of the independent observer is to provide confidence to the athletes about the fairness and objectivity of the process. The independent observer must be familiar with high performance diving. Their role is to act as an observer – scrutinising the process, holding the Panel accountable to the Selection Policy and its criteria and ensuring the principles of fairness and acting without bias are upheld.

The independent observer must have no current or previous relationship (personal or financial) with British Swimming, British Diving, the athlete, or the athlete support personnel which could reasonable be perceived as a bias.

To make their decisions the Panel will use this Selection Policy and will consider the following factors, not in priority order:-

- a. Evidence of competition scores compared to projected Olympic Final scores;
- b. Evidence of consistency and 'step-up' through rounds;
- c. Future potential for 2024 and assessment against What It Takes To Win ("WITTW") criteria;
- d. Results from each Phase and athlete performance at the "6 Competitions".

The Selection Panel shall meet twice, once on 26<sup>th</sup> January 2020 and on 28<sup>th</sup> April 2020.

The Selection Panel may select athletes prior to Phase 3 and after the first of the "6 Competitions" and will consider, including but not limited to the following and not in priority order:-

- a. The results of Phase 1 and 2;
- b. The results of the British National Championships;
- c. The physical and mental health of the athletes;
- d. Evidence of competition scores compared to projected Olympic Final scores;
- e. Evidence of consistency and 'step-up' through rounds;
- f. Future potential for 2024 and assessment against What It Takes To Win ("WITTW") criteria.

## **Selection Criteria**

The NPD has also identified the following “6 Competitions” (see **NOTE** below) for athlete performance monitoring in the build up to Phase 3 and the Selection Panel’s final selection of athletes, subject to early selection by the Selection Panel.

The Selection Panel will use these competitions to assist their decision making however, performances at these competitions will only be used as a guide, may not be taken into consideration and as set out above the Selection Panel may select athletes after the first of the “6 Competitions”.

Athletes should note that selecting the composition of athletes seeking to compete in the synchronised diving event may mean that an individual athlete may secure a better record at the identified selection events and /or the “6 competitions” but this does not necessarily mean that the athlete with a better individual record will be selected. The Selection Panel will be selecting the composition of the athletes to compete in the synchronised diving event not necessarily the athletes that have a better scoring record.
